Commissioner for Patents

Art Unit: 2624

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 7, lines 1-2, the term "the log operation in the multiscale retinex" lacks proper antecedent basis.

***Allowable Subject Matter***

3. Claims 1-6 are allowed.
4. Claim 7, insofar as it is understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
5. The following is a statement of reasons for the indication of allowable subject matter:

Re claim 1 (and dependent claims 2-7), the art of record does not teach or suggest the recited arrangement of an image-lightening retinex function changed in a stepwise way along two orthogonal axes.

Art Unit: 2624

**Conclusion**

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Frankle et al, Woodell et al, and Rising disclose examples of image processing using a retinex function.
